## WORK EXPERIENCE

---

- May 2016 – Present**      **Credit Analyst- Business Banking, JP Morgan Chase India**
- Credit underwriting of corporate loan proposals of US entities with annual revenues up to \$25MM to support new & existing business opportunities & recommendations for credit enhancement / risk mitigation measures
  - Annual review of the existing facilities, as a part of the Basel requirements, in order to study the ongoing financial performance of each existing client and thus identify any emerging risks, thereby re-examining the probability of default associated with each client
  - Analyzing operating trends, industry research, peer analysis, financial ratios, debt service capacity, liquidity and overall credit risk for recommendation and preparing in-depth credit report for senior credit management
- Sept 2011 – Jun 2014 (33 months)**      **Assistant Manager - Control & Instrumentation, NTPC Limited (Public Sector Undertaking)**
- Primarily responsible for independently handling Engineering Packages worth INR 500 million at RGPPL
  - Involved in routine and preventive maintenance activities of gas and steam turbines, overhauling & recommissioning activities, unit startup & shutdown processes of India's largest gas based power station
  - Responsible for managing and supervising the material/equipment purchase worth INR 20 million and Annual Maintenance Contracts of around INR 6 million
  - Spearheaded knowledge transfer initiatives & designed a turbine simulator for facilitation of training to juniors
  - Revitalized instrumentation lab for in-house service of high-end equipment saving INR 1.5 million annually
  - Managed internal stakeholders and multinational suppliers to install the critical engineering packages
  - Supervised the work of multiple contractors ensuring adherence to technical standards and performance
  - Led Maintenance teams on re-commissioning and R&M projects while working with major EPC consultants
  - Implemented workplace management methodology 5S in the workplace and trained around 30 contract workers on 5S and other maintenance and safety procedures
  - Led a team of 12 workers and 3 site-supervisors/engineers for carrying out the maintenance activities
  - Ensured closer adherence of contracts, drawings, technical specifications, safety regulations and timelines
- Jan 2011 – Sept 2011 (9 Months)**      **Assistant System Engineer, Tata Consultancy Services**
- As a functional consultant, was responsible for configuring SAP Sales and Distribution business areas
  - Part of the development team of Enterprise intercompany pricing solution (IPS), a Tax Intelligence Solution product, which enabled global multinational companies to better manage their intercompany pricing policies

## INDUSTRY INTERFACE

---

- April 2015 – May 2015**      **Summer Intern, SBI Capital Markets Limited**
- Studied Multi-Year Tariff (MYT) regulations for Delhi and Maharashtra distribution utilities, analyzed and performed quantitative and qualitative analysis of the ROCE vis-à-vis ROE based return approaches used for determining electricity tariff to the end consumers
  - Developed an Equity Return model, using Multi-Year Tariff regulations of regulatory authorities, to understand the quantitative impact of ROE based return approach vis-à-vis ROCE based return approach on the electricity tariff & financials of BSES Rajdhani Power Limited
