Publication – [Use-Me Sort: A new Sorting Algorithm](#)

September 6, 2014

Description: The idea is to make use of already ordered elements present in the list and combine it with already sorted array left behind.

Education

B.Tech. in IT, Indraprastha University, Delhi

Aug. 2011 - April 2015

- I completed my Bachelors with 76% aggregate and ranked among top 10% of Class.
- My concentration was on developing the sorting algorithm and publishing its research paper. Competitive coding was also one of my interest areas.
- I did professional training from CMC in J2EE, struts and Hibernate.
- Major project - transit control system, a traffic tracking distributed system involving OpenCV, PHP and Android development.
