

VAISHALI KATARIA

Email Id: vaishali11.kataria1992@gmail.com

Contact No: +91-8105350526

Objective:

To work in an environment which is innovative, challenging, rewarding and which offers a profound knowledge base to enhance my talent exposure and zeal of learning.

Professional Summary:

Vaishali has 2 Years of experience in developing and supporting applications with proficiency in .Net programming and related technologies which comprise of ADO.net, LINQ, ASP.net, WPF, WCF and MVC. She possesses exceptional interpersonal skills, problem solving and leadership skills with an analytical bent of mind to create and sustain high work tempo.

Certification:

Certified in "Programming in C#" - **Microsoft** (June 2016)

Technical Skills:

- **Programming:** C#, ADO.net, LINQ, ASP.net, WCF, MVC.
 - **Database:** SQL Server, Oracle Database 10g/11g.
 - **OS:** Windows- XP, 7 and 8, UNIX.
 - **Scripting and UI:** JavaScript, HTML5, CSS, AJAX, Telerik.
 - **Windows Development :** WPF
 - **Service Development:** Windows Service, Web Service.
 - **Others:** Team Foundation Server (TFS), Github, Jenkins, JQuery.
-

Project Experience (Nov 2014- current date)

- **Client:** Leading US Publishing and Financial Information Firm
- **Domain:** Advertising
- **Technology:** ASP.net, ADO.net, LINQ, Unix server, SQL and Oracle Database, Javascript, XML, Telerik, JQuery.

Description:

Infosys handles various applications of the client, out of which four applications have been supported and maintained by our cluster. Among various sectors these applications lie under the advertising domain.

One of the application was a web-based tool designed to display availability of select U.S. & international print premium positions (e.g. Front page, Heard on the Street, Weather Map, etc.) in a simple, user-friendly calendar view.

For these applications, Optobus was a centralized data repository for Operative One generic feed. ADW (Advertising Warehouse and XCRM are the consumers of Optobus repository).

It also included web application that allowed administrators to manage the sales organization, teams, sales persons, goals and products.

Roles/Responsibilities:

- Analyzed and assessed various third party migration tools and presented the best available option to the client.
 - Designed and developed the application to download the feed from ftp location to the server and then load these files in the feed into database every day.
 - Responsible for client interaction for getting the design document signed off and the change request.
 - Designed and developed minor and major enhancements in the APIs to make method compatible with existing code base.
 - Conducted end to end testing of the application.
-

Academic Details:

- **B.tech:** Electronics and Communication Engineering – 83.02%, 2014, Bhagwan Mahaveer Institute of Engineering and Technology, Maharishi Dayanad University.
- **12th:** CBSE- 85.8% , 2010
- **10th:** CBSE- 85.6% , 2008

Co-Curricular Activities:

- Volunteer at Make A Difference (MAD) Foundation.
 - Anchor in INFY TV (Infosys Intranet News Channel).
 - Volunteer in Infosys Samarpan Team (Infosys' Initiative to help the needy).
-
