## EDUCATION 2013

**B.E:** Computer Science and Engineering  
**Visvesvaraya Technological University**

Top 5 in class in engineering with a CGPA of 8.1 (77%)

**12th: Presidency Pre-University College**

**10th: Vidyashilp Academy**

## PROJECTS

**Equipment Tracker phased project for Eli Lilly:** A 320 thousand dollar project to be deployed for Lilly Enterprise-wide. Lilly has many manufacturing plants in the U.S. and needed a solution to conduct inspections on pieces of equipment and generate reports. Previously, the inspections were being carried out by third party vendors.

*Phase 1: Equipment Tracker Activation and Launch*

*Phase 2: Equipment Tracker Collection Routes*

*Phase 3: Equipment Tracker Mobile Routes*

*Phase 4: Equipment Tracker Collection Reports*

Our solution has helped Lilly reduce company costs by 15%.

**Alstom's divestiture from GE:** Alstom was a part of GE but were mostly functioning as a separate entity and hence needed a solution to transition out of GE. The requirement was to create a new business setup and the company communicated that the week of 2nd Nov, 2015 is when they would like to go ahead with the transition. Transitioning into a new business setup means the company will not be able to enter any data into the applications and will not be able to generate any reports. Understanding their need and time sensitivity we promised them that we would complete the transition in a week's time but were able to do it in 5 days. Alstom successfully moved out of GE with all their previous records, data and a new business setup in place.

**Word Cloud Agent:** A project that has been a big hit ever since its launch. The Word Cloud Agent is a new type of visual reporting that generates word clouds by processing data to display top concerns, findings and incidents at sites and within the business. This new and innovative type of reporting has helped businesses across the globe to reduce concerns, findings and incidents by being able to take appropriate action at the right time.

## ON-SITE

Boston, Chicago, Cincinnati, Cupertino, Indianapolis, New York, San Jose and San Francisco

## AWARDS

**MVP** - Jan, 2016, **Rising Star of the Year** - May, 2015, **Best in Class Excellence** - Dec, 2014
