ABOUT ME

I am a developer and am committed to making a difference. I am always prepared for challenges and adaptable to different environments and technologies. I believe in team work and am a delight to my peers and clients.

EDUCATION

BTECH

St Martins Engineering College(JNTUH) — 2010-2014

The best four years of my life, that which nurtured me into a software professional with the best of computer science experts, and enhanced my love for the subject. I passed out with an aggregate of 74.3%

INTERMEDIATE

Narayana Jr College — 2008-2010

My first experience with pressure and competition. Those two years has prepared me for all the battles and challenges I would be facing. I passed out with an aggregate of 89.7%

EXPERIENCE

PROGRAMMER ANALYST, COGNIZANT

2014-Present

I was a part of Project Management team and now an active member of Project onboarding team, wherein my work primarily focuses on handling client change requests in a fast paced agile environment.

Accomplishments:

- Successful onboarding of a client
- Played a responsible role in resolving bugs for the first forrester review of our product.
- Provided knowledge transfers on various aspects on Nuxeo tool.

TECHNOLOGY TOUCH

Java has been my field of work and have kept me intriguing with its simplicity and ease in creating applications. Hadoop, fascinates me with its efficiency, problem solving and lifesaving capabilities.

Certifications:

- Introduction to Big Data, Big Data modelling and management systems from University of California, San Diego through coursera
- Machine Learning for data science and Analytics(Columbia University), English Grammer and Essay writing(University of California, Berkeley) through edx

SKILLS

Core Java	SQL	JSF
