TRAINING

- Drytech Engineers, Pune for 15 days. (Internship)

BACHELOR OF MECHANICAL ENGINEERING

Seminar : Catalytic converter of diesel and petrol vehicles.

Project : Design & Analysis of Drill Bit Fixture.

The project Design & Analysis of Drill Bit Fixture was sponsored by company SANDVIK ASIA PVT.LTD, Pune. In this project we have designed a drill bit fixture on machine HMT GT28TM. Fixture for drill-bit was mounted on a manual tool and cutter grinder machine for providing required step-angle of (0°-360°).The design we made was simple, cost effective and compact in nature and it also provides step angle on the drill-bit with the range of 90° to 180° and angular tilting feature with the range of -20° to 20° satisfying the various requirements.

DIPLOMA IN MECHANICAL ENGINEERING

Project : Refrigerated Compressed Air Dryer.

The project Refrigerated Compressed Air Dryer was sponsored by company DRYTECH ENGINEERS, Pune. In this project we had used 3 in 1 heat tube exchanger, Where Dryer we had made for main purpose inhalation of fresh air and its applications are used in spray paintings, food preservation, pneumatic tools, ICU hospitals, etc. We used component like accumulator, refrigerator, airfilter, 2 bar compressor, etc. where cost for making dryer was very minimum than other dryer where we have achieve same result by making dryer compact in size. Efficiency we achieved was 88%. Refrigerant we used in this dryer was eco friendly.
