Academic Projects: Mini project

| | |
|-------------|---|
| Title | : MOVIE ON DEMAND (Crackle) |
| Front End | : PHP, HTML-5 |
| Back End | : MySQL |
| Duration | : 6 months |
| Description | The project aims at creating an online theatre environment to a wide audience out there in the web. The registered user can buy movie and later on they can watch movie, rate it and comment on it. The main feature of our project is that it provides an online platform for movie releasing. |

Main project

Title ROAD ANOMALY DETECTION USING SMART PHONE

| | |
|--------------------|--|
| Description | Maintaining the quality of roadways is a major challenge for governments around the world. This project explores utilizing a mobile phone with a tri-axial accelerometer to collect acceleration data while riding a vehicle. The monitoring of road surface conditions plays a key role in ensuring safety and comfort to the various road users. |
|--------------------|--|
