HSC	SRC Memorial Matric Higher Secondary School, P Puliampatty.	State board	87
SSLC	SRC Memorial Matric Higher Secondary School, P Puliampatty.	State board	88.6

## Area of Interest

- Linux operating system
- Cloud computing
- Shell scripting

## Area of knowledge

- C
- C++
- JAVA
- PYTHON 3.0
- AWS cloud.

## **Project**

Title : **Counselling Helper**

Domain : Android

Description : In this project an android application was developed to help the students to choose college during counselling at Anna university. The application is connected with a database containing list of colleges and the students can search for them by using it.

Title : **Secured Data Storage in Cloud using OTP**

Domain : Java

Description : An extra security added to cloud using OTP. The data is split into three parts and then encrypted and stored in the cloud. It can be shared with other persons. When others try to read the shared data an OTP is generated and sent to the file owner he has to share it to the user in order to authorize download. By the help of this project the users can prevent data theft in cloud even if username and password is compromised.
