TECHNICAL SKILLS

- **Programming Language :** Core Java, Adv.java, JavaScript, Spring, C
- **Database** : Oracle, MySQL

PROJECT DETAILS

- **Engineering Project:-**
  Title: "A Novel Methodology for Direct & Indirect Discrimination Prevention In Data Mining"
  Data mining techniques such as classification rule mining are used to making automated decisions. And Discrimination of data set into two forms Direct and Indirect. Antidiscrimination acts are designed to prevent discrimination on the basis of a number of attributes in various settings. Discrimination can be either direct or indirect. Direct discrimination occurs when decisions are made based on sensitive attributes. Indirect discrimination occurs when decisions are made based on non-sensitive attributes. Data transformation techniques are applied to prepare the data values for the discrimination prevention.
  Team Size: Four
  Language: JAVA and SQL

- **Diploma Project:-**
  Title: "GUI Code Generator "
  The system we have designed serves this purpose i.e. in our project we have design such an editor that provides the drag and drop of the components on the canvas. We don't need to write the code to create the form, we just have to drag and drop the components and the code is generated automatically. We can also save the generated code in a file. It saves our great deal of time and efforts.

PERSONAL SKILLS

- Adaptable and Cooperative.
- Quick learner.
- Good Communication.
- Confident.

EXTRA CIRRUCULAR ACTIVITIES
