PROJECTS

Secret Sharing System(MCA Sem-IV project)	
Tool	Java , Swing
Role	Developer
Duration	January 2016 – March 2016
Team members	2
Description	Secret sharing system is a desktop application which allows you to send your information to other fellow in which information is secured by cryptographic techniques and hence security is maintained. Data can not be hacked by the hacker. It is achieved by using Shamir's Secret sharing algorithm which allows sharing a secret key among both the parties to send and receive messages.

Social Media Site- "Friends"(MCA Sem – II Project)	
Tool	PHP, MySQL(WAMP server)
Role	Developer
Duration	January 2015 – March 2015
Team members	2
Description	"Friends" is a social media site to connect with your friends. The site provides updating your profile, adding photos, sending request to people, chatting with them, unfriend the unwanted people, writing comments on posts etc.

Call Blocker (MCA Sem-V Mini project)	
Tool	Android Studio
Role	Application Developer
Duration	August 2016 – September 2016
Team members	2
Description	The application allows people to block the unwanted contacts from the phone so that the messages are also blocked from that person. Password security is provided too. It also maintains logs and send notification of incoming blocked call.

Online shopping System- "myshoppe.com"(TY BSC CS project)	
Tool	Microsoft Visual Studio 2008 (ASP.Net project),SQL Server
Role	Developer
Duration	January 2014– March 2014
Team members	1
Description	The website allows you to shop online by choosing your favourite products and then make order and pay online.
