Title	:	**Secure Storage Services In Cloud Computing**
Role	:	Team Lead
Tenure	:	January 2014 – April 2014
Team Size	:	4
Environment	:	.Net, Windows 7

Description:

SECURE STORAGE SERVICE IN CLOUD application is mainly used to synchronize the data (files and folders) which are present in the system with cloud. It is having two applications web and desktop. Web is used for uploading and downloading files explicitly where as windows app will be installed in the system which runs background to download the files automatically from the respective employee folder based on the credentials.

- ➢ Our proposed approach consists of 2 modules
- ➢ 1.User module 2.Admin module
- ➢ User module is for uploading data and admin module is used for providing security to the uploaded data and to retrieve it efficiently
- ➢ In this we used **OTP** to provide more security to the user data
